## GERMAN ANTIPATHY.

No American Hogs or Ideas Wanted in  
Fatherland.

Senator Everts Endorses Beck's Speech  
Upon the Silver Question.

Four Hundred Miners Entombed by a  
Fearsome Colliery Explosion.

Nothing American Wanted in Ger-

many.

Washington, December 22.—The annual  
report of Jacob Mueller, U. S. Consul-Gen-  
eral at Frankfurt-on-the-Maine, Germany,  
has been received at the State Department.  
He calls attention to the reactionary ten-  
dencies prevailing in that country in indus-  
trial and commercial relations with the  
United States, which, he says, explains the  
ill-will of the official and ruling spheres  
against the United States. They dread, he  
says, American hogs, wheat, and American  
imports generally, but still more the in-  
fluences of American ideas. Not only is  
the tendency to retrogression noticeable, he  
says, in the political, economic and religious  
sphere of life, but the barriers existing be-  
tween mankind are also fostered and con-  
solidated to such an extent that the spirit of  
unity is again becoming prominent and the  
feudal system resurrected. He alludes to  
this tendency as the principal reason for  
the prevailing anti-Americanism, and in or-  
der that the United States Government may  
be prepared not to anticipate from the  
officials of Germany or Austria, hostile as  
they are to American liberty and prosperity,  
any gratuitous concessions.

The Consul reports that the depressed  
state of trade and industry in Germany con-  
tinued during the past year, and the new  
tariff system has proven a failure. The de-  
clared value of the exports from Germany to  
the United States during the year 1884,  
amounted to \$25,000,000, a decrease of \$8,  
000,000 as compared with the previous year.  
The principal decrease was in China and  
porcelain ware, hat-bands and ribbons, hides  
and skins, linens, silks and dress goods,  
wines and liquors, iron and steel goods,  
hair, glass, plate, etc. The imports from  
the United States are confined to agricul-  
tural, mineral, animal and vegetable pro-  
ducts. Emigration from Germany to the  
United States has fallen off 40 per cent. dur-  
ing the past nine months of 1885. There is  
a feeling of antipathy towards the United  
States on the part of the German people,  
and every effort is resorted to to discourage  
it. The great import of foreign wheat has  
caused a decrease in the price of wheat, which  
would amount, practically, to prohibition.  
In conclusion, Consul Mueller says that the  
present strife of nations for industrial and  
commercial supremacy among members of the  
American policy of free ships, of industries un-  
trammelled by burdensome taxes and of vig-  
orous protection of American abroad.

**Higher Education for the Blind.**

New York, December 22.—A Baltimore  
special says: Private meetings have been  
held here recently to secure a national col-  
lege for the blind. Among the leaders in the  
movement are W. B. Wait, superintendent  
of the New York Institution for the Blind;  
Superintendent M. Anagnos, of the Boston  
Institution; Superintendent Hall, of the  
Blind Men's Working Home, of Philadel-  
phia, and Superintendent Morris, of the  
Maryland Institution. Baltimore has  
been selected as the site to be recommended  
for the college in the matter of emigration,  
Congress to pass an act incorporating the  
institution for the higher education of the  
blind.

**Arranging the House Committee.**

Washington, December 22.—The Speaker  
of the House is now at work arranging the  
committee. It is said they will be given  
out for publication as soon as completed,  
not waiting for Congress to meet. There is  
considerable uneasiness among members to  
know where they will be assigned. Their  
anxiety has kept many in Washington for  
the holiday recess. Had the committee  
been announced before the adjournment, it  
is probable that most of the members would  
have gone home for their Christmas dinner,  
but under the existing circumstances only  
seventy-five have taken advantage of the  
opportunity. The remainder, or most of  
them, will stay in the city.

**Ireland as a Loyal Colony.**

New York, December 22.—The Herald's  
London special says: An important Irish  
allusion was made about midnight at a din-  
ner at the Holborn Hotel, given to Howard  
Spensley, member of Parliament elected, for  
Clerkenwell. In the course of the speech  
responding to his health, he said: "The  
British Empire has twenty-one colonies.  
Why should not Ireland make another?  
Trent Ireland as we treat Canada or Aus-  
tralia and so country would be more loyal  
to the Empire." This was received with the  
most uproarious cheering, many Liberal  
leaders and laboring workers who were  
present joining in.

**That Charley Ross Sensation.**

Portland, Oregon, December 22.—The  
story telegraphed from Cincinnati about  
Charles Whitehead, the Pacific Coast In-  
dian, published last afternoon, having re-  
sulted in two children whom he thought hope-  
lessly lost, were received here with smiles of  
relief. Two years ago Whitehead was  
here on a little "king" daily, and his  
claim to have possessed \$3,000 is more than  
laughable. Whitehead used to delight in  
sensations, and his acquaintances here are  
of the opinion that he has gotten this up and  
made himself a liar.

**Thurman Will Be an Arbitrator.**

COLUMBUS, Ohio, December 22.—Allen G.  
Thurman was elected to-night as umpire  
before the mining arbitration board. He  
was suggested by the miners and was readily  
accepted by the operators. The committee  
appointed to wait on him report that he will  
accept.

**Of Course, Gould Likes Water.**

New York, December 22.—Jay Gould's  
yacht, "The Atlanta," cleared yesterday  
morning for Charleston, S. C., where she  
will remain until joined by her owner. The  
exact date of Gould's departure on his long  
projected trip to southern waters has not  
been definitely fixed. At his office yesterday  
it was said he will probably leave early in  
January.

**Just For a Week's Run.**

BROOKTON, Mass., December 22.—The  
forty-two shoe factories here, which have  
been about a long time, opened their doors  
to-day for a week, under the terms of the  
award made by the board of arbitration  
between the manufacturers and employees.

**Cox Negotiating with Turkey.**

CONSTANTINOPLE, December 22.—United  
States Minister Cox has begun negotiations  
with the Porte for a naturalization treaty by  
which citizens of Turkey and the United  
States will have equal rights in both coun-  
tries.

**Short Holidays in Washington.**

WASHINGTON, December 22.—To-day it was  
decided that in addition to closing the de-  
partments on Christmas and New Years,  
they would only be closed at noon on each  
of the days immediately preceding those  
holidays, and that contrary to the long es-  
tablished custom, they would be open for

## ANOTHER MINERS' ROW.

Non-Union Men Are Attacked in Penn-

sylvania, and Run for Their  
Lives.

Michael Davitt Believes That Home

Rule Will Settle the Irish  
Question.

The Tunnel Commenced to Rescue the

Bodies of the Entombed Miners

at Naticoke.

Striking Miners Attack Non-Union-

ists.

Pennsylvania, December 22.—Seventy-five  
miners attacked working miners at the  
Old Eagle mine, near Monacaohela  
City, about daylight, and compelled them to  
return to their homes. Several persons were  
injured.

LATER.—About 4 o'clock this morning  
seventy-five miners put in appearance at  
the Old Eagle mine, near Monacaohela  
City, and as the working miners approach  
the mine they were halted and compelled  
to return to their homes under heavy fire.  
The strikers attacked non-unionists.

Then upon any previous occasion. All were  
armed, and at least twenty-five shots were  
fired. Superintendent Jones, of the Old  
Eagle mine, says the strikers had evidently  
aid in wait for the miners at the night in  
the woods near the mine, as they were not  
observed until they rushed down the hill-  
side, firing their revolvers and guns. The  
workers were frightened almost to death,  
and ran for their lives. None of them were  
shot, but a number were injured in their  
escape. Two, whose names  
were not learned.

JUMPED OVER A SMALL FENCE.

And were quite seriously hurt. After all the  
miners were driven off, Superintendent Jones  
looked back, but was also compelled to re-  
treat under threats of bodily harm. At 11  
o'clock all was reported quiet, the strikers  
having departed shortly after daylight. It  
is said that the working miners at the Old  
Eagle mine will be supplied with arms to-day  
for future protection.

**Senator Miller Is a Sick Man.**

New York, December 22.—The Herald's  
Washington special says: Senator Miller of  
California arrived here Friday night fatigued  
by the long journey from San Francisco. It  
was thought the quiet, following the trip,  
would revive his energies, but since he got  
here he has been a sick man. His stomach  
has been so much affected that he is unable  
to eat, and his strength is rapidly failing.  
The severe strain upon his  
nervous system caused by the effect of the  
long journey, and the fact that he is ex-  
posed to the cold, are the causes of his  
illness. He is now in a very weak con-  
dition, and his health is rapidly failing.  
The strain already made up-  
on his vitality, are naturally apprehensive  
of the strength needed to recuperate may fail.

**Barred Under the Avalanche.**

DETROIT, Col., December 22.—A silverton  
special to the News says: A snow slide  
came down the mountain into Minnesota  
Gulch this afternoon sweeping everything  
before it. The slide struck the mouth of  
the Prodigal Son mine filling the eighty-five  
foot shaft, burying Burk, Hovey and J. M.  
Hovey, who were working at the bottom of  
the shaft. The snow was so deep that it was  
impossible to get to the bottom of the  
shaft. The bodies of the three men were  
not recovered until this morning. The  
miners are working. All hopes of reaching  
the imprisoned men alive have been aban-  
doned.

**Michael Davitt on Home Rule.**

LONDON, December 22.—Michael Davitt  
in an interview to-day, respecting home rule  
for Ireland, said: "The alleged proposals of  
Gladstone recently published are a good  
basis for the settlement of the Irish ques-  
tion. I advocate Daniel O'Connell's plan  
for a minority representation in the Irish  
Parliament. It would give 75 seats to  
Ireland, and 225 to the Parliament. The  
policy should be discarded. Irish landlords  
would be impossible under an Irish Parlia-  
ment."

**Yellow Bag Fills Up with Gas.**

FOUR WOODS, December 22.—A prominent  
Indian sachem, named Yellow Bag, of the  
Comanches, resident in the Indian Terri-  
tory, visited Fort Worth on Sunday to pur-  
chase a Christmas present for his tribe, and  
put up at the Chickadee Hotel. At a late  
hour he was found dead from apoplexy. The  
report is that Yellow Bag was intoxicated  
and either blew out the gas or turned it  
out and then turned it on again.

**Everts Stays With Silver.**

WASHINGTON, December 22.—The Star says  
that after Senator Beck had made his speech  
yesterday in favor of the continuation of  
silver coinage, Senator Everts, who listened  
attentively throughout, said: "Beck is right,  
and I intend to make a speech on the same  
line. His arguments cannot be refuted."

**Will Try and Resist Gould's Cur.**

ST. LOUIS, December 22.—A number of  
railway conductors engaged on the Missouri  
system, have been in secret session here  
to-day. It is stated the purpose is to  
take preliminary steps looking to the cor-  
poration of the order of Locomotive Engi-  
neers and Firemen with the conductors and  
firemen to resist an anticipated movement  
to cut down the time and pay of the con-  
ductors on the Gould system.

**Wanted for the Dead Miners.**

WHEELING, December 22.—Work was  
commenced this morning on the new tunnel  
to where the bodies of the men are supposed  
to be. Work will be pressed night and day  
with strong force of miners, laborers and  
men. It is hoped that the bodies of the  
victims will be recovered in less than a  
month's time.

**An Awful Colliery Explosion.**

LONDON, December 22.—A dispatch from  
Port Y Pridd, Wales, reports that a terrible  
colliery explosion has just occurred at the  
Ferndale pit, near here, and that no details  
of the catastrophe have yet been received.

**Fire in an Indiana Town.**

VINCENNES, Ind., December 22.—A fire here  
was checked shortly after 2 o'clock with a  
total loss varying little from the previous  
one of \$25,000. The loss was much ex-  
ceeded during its progress, and fear that  
a large portion of the city would be swept  
away.

COMBINE is said to be a perfect reme-  
dy for seasickness. A spoonful stops  
the severest case and sends the patient to  
the table with the appetite of a wood-  
chopper.

**Schade's**  
Billiard and Beer Hall is now open to the  
public. Only the finest brands of liquors  
and cigars kept on hand, at 167 Main St.  
W. SCHADE, Proprietor.

## SERIOUS RAILROAD ACCIDENTS.

Missed His Hold and Dragged  
Under the Wheels of a Pay Car.

Scattered Things.

A distressing accident occurred near  
the coal mines at Alma, Monday, on  
the Union Pacific, which caused Jacob  
Warpola to lose both his feet. The un-  
fortunate man made an attempt to board  
a passing train, and not succeeding, made  
a second attempt. He missed his hold  
and was dragged under the cars, the  
wheels of which passed over both ankles,  
crushing and mangle them in a fearful  
manner. He was taken to the hospital  
at Ogden. When he arrived his feet  
were both hanging by the tendons, and  
the crushed and mangled flesh and  
bones presented a sickening sight. Dr.  
Mitchell, assisted by the house surgeon,  
Mr. J. J. Ahern, amputated the unfor-  
tunate man's limbs about half way be-  
tween the knees and ankles. The patient  
is doing as well as could be expected  
under the circumstances. He is a Fin-  
lander by birth, and is unable to speak  
the English language. He cannot de-  
scribe accurately the causes of the acci-  
dent, or how he feels. He is having the  
best of care, however, and will probably  
recover in a reasonable length of time.

Another accident occurred on the  
Union Pacific near the one thou-  
sand mile tree Monday afternoon, at  
about 3:30 o'clock. The pay car was  
coming down the track, running at a  
pretty good speed, when they discovered  
a hand car on the track only about 100  
feet ahead. The men on the hand car  
jumped off, and endeavored to get the  
car off the track, but did not succeed in  
getting it off far enough to clear, and the  
engine came up and struck the car,  
knocking the men in half a dozen differ-  
ent directions. One of the men, J. B.  
Shine, of the civil engineer department,  
was struck on the head either by the  
hand car or something that was on the  
car, and knocked senseless. The injured  
man was brought to Ogden on the pay  
car and placed in the hospital. The  
wounds on his head are painful, but not  
serious. It is thought that he will be  
able to get home in about a week. No blame  
is attached to any one on account of either  
of the accidents.—Ogden Herald.

**Won't "Monkey" Any More.**

Johnny Duffy, the well-known mix-  
ologist, is in deep mourning. Poor "Jim"  
is dead. What Salt Lake has ever  
called at the Capitol Saloon and not met  
Duffy's right-hand partner "Jim," the  
famous educated monkey. "Jim" was  
an interesting specimen of the Darwinian  
idea, and made himself conspicuous by  
taking an active part in the Lavin-Brown  
campaign bet of last season. Jim would  
ride about the streets on the back of  
old "Clay," the mammoth Newfoundland  
dog, and perform his many amusing antics.  
Jim died of consumption, after under-  
going all the symptoms and paroxysms  
of coughing experienced by a human  
being. He was buried back at the Cap-  
itol, under the supervision of John, the  
colored man, and on his headboard was  
inscribed: "The monkey's dead. Jim  
died at the age of 5 years. Where can  
his equal be found? DUFFY."

**A Lively Runaway.**

The even tenor of Main street was  
disturbed about 1 o'clock to-day by a lively  
runaway. Dr. White's sorrel horse and  
buggy were hitched in front of his office,  
when the old Arab became uneasy, and  
slipping his bridle he went tearing down  
Main street at 2:30 a.m., splashing the  
mud broadcast. On turning into the  
quarters at Mulloy & Paul's stables he  
collided with several carriages. The dam-  
age consists of three smashed wheels to  
standing carriages and the demolishing of  
the Doctor's top buggy.
